PROFESSIONAL SUMMARY

Bilingual English-French finance professional with solid experience in treasury, cash management and market operations control, from bank back office (Ecobank, Ghana and Paris) to Group Treasury at Eutelsat and Danone. Daily treasury monitoring, bank reconciliations, FX position control, confirmations and settlements across FX, rates, financing and commodities, internal controls and anomaly resolution. Increasingly focused on automating treasury controls in partnership with IT, including an AI solution for commodity confirmations. Recognised for rigour, attention to detail and effective work with Front Office, Corporate Finance, International Treasury and banking partners in international environments.

CAREER HIGHLIGHTS

- Contributes to the yearly internal control cycle for Danone treasury operations under the Dango governance framework: process mapping, key-control testing, remediation, control documentation and audit support.
- Drives treasury automation with IT: weekly FX position checks, monthly FX position and account-balance controls, and the FX portfolio reconciliation between Danone Corporate Finance Services and Danone Finance International.
- Supports the design and testing of ROBOCOM, an AI solution automating the legal and economic checks of commodity confirmations (functional requirements, test execution with IT and Diapason).
- Trains and onboards treasury and corporate finance interns at Danone and Eutelsat: onboarding paths, training materials, coaching and quality checks until autonomy.
