## PROFILE

Bilingual English-French treasury professional with **7+ years in bank operations and corporate treasury**, including **4 years in Danone Group Treasury**. Controls the full post-trade chain on **FX, commodities, interest-rate swaps, bonds and cross-currency swaps**: confirmations, settlements, reconciliations and position control, within an annual internal control framework. Turns manual controls into automated ones with IT, up to an **AI solution** checking commodity confirmations. Known for rigour, attention to detail and effective work with Front Office, Corporate Finance, auditors and banking partners.

## KEY ACHIEVEMENTS

- **Treasury automation (Danone):** digitalised, with IT, the weekly FX position checks, the monthly FX position and account-balance controls, and the FX portfolio reconciliation between two group entities (DCFS and DFI).
- **AI project ROBOCOM (Danone):** wrote the functional requirements and ran the test phases of an AI solution that checks the legal and economic terms of commodity confirmations, with IT and Diapason.
- **Internal control (Danone):** yearly treasury control cycle under the Dango framework: process mapping, key-control testing, remediation, control documentation and audit support.
- **Back-office rigour (Ecobank, Paris):** 89 Nostro accounts reconciled every day; FX settlements controlled from deal booking to credit confirmation.
- **Knowledge transfer:** designed onboarding paths and trained treasury and corporate finance interns at Danone and Eutelsat.
